FAQs

How do I access the online form to secure additional opportunities?

- The URL to access the online form to secure your a la carte menu items will be included with your annual fees invoice.

When can I begin selecting additional opportunities from the a la carte menu/form?

- Selection and invoicing for a la carte items can begin as soon as the online offerings form URL is distributed along with renewal invoices, and selections can continue throughout the year reliant on availability.

Will there be a limited number of Business Partners who can select an a la carte item?

- No level is limited in their selection of opportunities. There will, however, be a limited quantity of certain options available based on implementation logistics.

Will NSGIC Staff decide who will be granted a la carte items?

- No. A la carte items will be available on a first come, first served basis, but NSGIC staff is happy to work with you to customize your participation and support to best fit your organization's needs.

FAQs (Cont.)

How will the a la carte items be reserved?

- These offerings will be available for purchase on a first come, first served basis via the online form starting in early November and continuing throughout the following year, based on availability, with the option to customize packages and opportunities as they arise. Each selection's full deliverables are outlined in the à la carte menu above.

Can I secure some a la carte opportunities now and some later?

- Yes. A la carte opportunities are offered on a first-come, first-served basis throughout the year based on availability starting in November along with annual fees renewal invoices.

When selecting a la carte items from the online form, when is payment due?

- Standard NSGIC invoices are NET 60, but all invoices must be paid prior to the event associated with the invoice.

Online form facts and tips:

1. The online a la carte reservation and payment form will be hosted on the same platform, MemberClicks, as our event registrations, so it should be a familiar format to most.
2. All opportunities are on a first come first served basis! Once opportunities are “*sold out*” they will no longer be visible or available for purchase via the online form.
3. Business Partners will have the option to select specific opportunities beyond what is included with their level. Only what is available for purchase by your organization will be shown on the form. If you don't see an opportunity from the a la carte menu on the form, it is likely already reserved by another organization and “*sold out*” or is already included in your level.
4. The PDF a la carte menu will serve as your detailed outline of offerings to help assist when securing opportunities via the online form.
5. Through the online form you will have the choice to pay in full upon check out or request an invoice for payment. All invoices are due prior to the event associated with them.
6. You may revisit the online form at any time throughout the year to secure and purchase additional opportunities based on their availability.
7. Once your selections have been made and the form is submitted, just like a conference registration, it is a binding contract.
